President Wilson very tersely told the woman suffragists that he couldn't favor woman suffrage because the Democratic platform didn't favor it. Then he turned right around and repudiated the plank in the same platform which favors the exemption from tolls of all American ships engaged in coastwise trade passing through the Panama canal. Is this statesmanship or diplomacy, or both; or just plain hypocritical inconsistency?

WHAT RUINS TOOLS.

Iron exists in brass or bronze in two conditions i. e., in a combined or alloyed condition, or as uncombined iron. In the former condition, the brass is uniform throughout, and the iron has alloyed completely with the other metals. In such brass, there are no hard spots. In the other condition, the iron exists in the shape of shot or nodules, which are very hard. When such brass is being cut, these nodules ruin the tools.—American Machinist.

RAILROAD FATALITIES.

The report of the interstate commerce commission shows that, for the year ending June 30, 1913, nearly 212,000 persons were injured in railroad accidents. That is about equal to the population of the city of Louisville—larger than the population of all but the twenty cities in the United States. Injuring the entire population of a large city in a single year in railroad accidents, and three-fifths of those accidents due to defects in equipment, shows that the interstate commerce commission or some other government agency still has a big work to do in regulating railroad operations.—Owensboro Messenger.

REASONABLE RULE.

The rule of a railroad, prohibiting passengers reversing seats and requiring them to sit facing forward in a passenger coach, "is reasonable and should be enforced" and "is in the interest of sanitation, cleanliness and the preservation of public health," said the Court of Appeals Friday, in an opinion written by Judge Turner, reversing a verdict for \$3,000 awarded in the Franklin Circuit Court to F. M. Spiller, insurance man, who was ejected from a Chesapeake & Ohio train, because he refused to take his feet off a seat and permit the conductor and brakeman to turn the seat over.—Cynthiana Democrat.

HEALTH AND THE OPEN WINTER.

The old-time theory that an open winter is prolific of ill-health seems to be disproved for the present season, in Chicago at least. The winter has been unusually mild, the thermometer on January 28 recording 60 degrees. There has been practically no snow throughout the months of December and January. According to the Bulletin of the Chicago Department of Health, there has been for the eight weeks ending January 24 a reduction of 29.6 per cent. in the pneumonia death-rate as compared with the average of a like period for the previous five years; 23.3 per cent. in influenza and 7.8 per cent. in the rate for tuberculosis. There have likewise been reductions of measles, which dropped 82 per cent.; scarlet fever, 54 per cent.; diphtheria 24.2 per cent., and whooping-cough, 18.2 per cent. The Bulletin accounts for this by the opportunity given by the mild weather for out-door living and better ventilation in living quarters. It is estimated that in the diseases named there has been a saving of 515 lives during the six weeks of December and January for which the comparison was made.

The PRICE was so low.

Mr. Business Man: This is the month when we give you bargains in Furniture. Though our high-grade Furniture is cheap for this one month, it will give you pleasure and service for many, many months. Why not take this season, when prices are so low, to buy all that new Furniture your wife has been wanting for so long? It will save you money to buy right now. Remember that, though our prices are lower now, our Furniture is the same standard line we sell all the time.

JOHN BRISBOIS,

MAYSVILLE, KY.

A Democratic auditor of state who will print the fact, as Donahy does, that the last Republican legislature spent \$77,298.18 for printing and the last Democratic one spent \$201,000.63 is candid cruelty.—Portsmouth Daily Blade.

THE GREATEST SWALLOWING

STUNT EVER PULLED OFF.

The greatest swallowing stunt ever pulled off in the world's history is now slowly, but surely going on. Doa constrictors swallowing elephants is a peanut job in comparison. It's this: Will the Republican party swallow the Progressive party, horns, hoofs, hide, tail, Teddy and all, or will Teddy swallow the Republican party, Bill Taft, Uncle Joe and everything and everybody else?

But come what will the Democratic party is going to be another Jonah, because if the Republicans and the Progressives merged either way, where will the Demmies land?

THE FORCE OF A UNITED

REPUBLICAN PARTY.

It is too early to predict results as to elections of 1914 if the Democratic candidates have to meet a united opposition, but with that opposition split in twain the Democrats would seem to have a decided advantage.

The red flag of danger would be speedily hoisted by the Democratic leaders if any union of the opposition was in sight.

They would recognize very quickly that the votes polled in Ohio, Indiana, Illinois, West Virginia and New York in 1912 would be insufficient to save the party from severe defeat in those States.

The campaign of 1912 was won for the Democrats by the splitting up of the Republican party.

The losses of voters sustained by the Democrats was far greater than the gains the party recorded.

The fate of the Democratic party is today largely in the hands of its two powerful antagonists. Especially is this true as regards the influential political states of the Union.—Cincinnati Enquirer.

SMOKING ON STREET CARS.

Sooner or later, every city large enough to need street cars has to settle this question: Should or should not smoking be permitted on such cars? In all cars of the closed type—the most prevalent kind—when smoking is permitted it is usually limited to the front or rear platforms. As passengers need to use both the rear and front platforms in boarding or leaving cars, the condition of these parts of the car is a matter that directly concerns the public health. While many cities have anti-spitting ordinances, these laws are, in the majority of instances, more honored in the breach than in the observance. As a result, the street-car platforms where smoking is permitted becomes both an offense to the eye and a menace to health. Where smoking is allowed on the front platform, and particularly in that type of car that has the front platform enclosed, the motorman works from morning until night in a tobacco-smoke-impregnated atmosphere, while the passengers who leave the car by the front platform have to pass through this expectation-decorated "fume-chamber." When the question, Shall smoking be abolished on street cars? come up for settlement with any city, there can be only one answer in the opinion of The Journal of the American Medical Association. From the point of view of hygiene and common cleanliness, to say nothing of the comfort of the majority, smoking on street-cars is an indefensible nuisance.

GOOD CONTRIBUTION.

Mrs. Murphy was getting the supper for the children on Saturday night when a young woman came to her door. "I'm a collector for the Drunkards' Home," she said. "Could you help us?" "Come around tonight and I'll give you Murphy," said the housewife, as she went about her work.

DANGER AFTER GRIPPE

Lies in Poor Blood, Cough and Worn-Out Condition.

Grippe, pleurisy, pneumonia are great to be feared at this season. To prevent grippe from being followed by either pleurisy or pneumonia, it is important to drive the last traces of it out of the system.

Our advice is to take Vinol, our delicious cod liver and iron preparation without oil, and get your strength and vitality back quickly.

W. W. Lake of Aberdeen, Miss., says: Grippe left me weak, run-down and with a severe cough from which I suffered for a long time. I tried different remedies, but nothing seemed to do me any good until I took Vinol from which I received great benefit. My cough is almost entirely gone and I am strong and well again.

Try Vinol with the certainty that if it does not benefit you we will give back your money. J. C. Pecor, Drug gist, Maysville, Ky.

P. S.—For Eczema of Scalp try our Sazo Salve. We guarantee it.

***** LUKE M'LUKE'S BITS OF BYPLAY. *****

There are lots of funny things in life. And one of the funniest is to hear a woman with a basso profundo voice talking to a man who uses a sweet soprano.

Every woman wants her hats too large and her shoes too small. A coat of paint will make an old barn look like new. But it only calls attention to an old woman's age.

Women are great little waiters. Some of the brides of 1900 are still waiting for the piano they were to get as soon as the honeymoon ended.

Nature tries to help poor man out. Women would do a lot more crying than they do if it didn't make their nose red.

Lots of men who don't believe there are any angels marry widows and have to listen to the virtues of the first husband.
